DETAILED

Applicant's appeal brief filed December 22, 2006 have been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant's remarks with regard to the ratio of the polyvalent ions recited in the claims not being taught or fairly suggested by the cited prior arts have been considered, and are found persuasive to withdraw the outstanding rejection. Only the secondary reference teaches the addition of divalent ion (calcium salt) to stabilize the phospholipid composition; however, the ratio taught in Materne is about 10 times more than what is disclosed in the instant specification. Given the superiority of the phospholipid composition by adding the polyvalent ions, the rejection under 35 USC 103(a) is withdrawn.

Claims 1, 3-5, 8-9, 11-15, 17-32, 44-55, 57-62, 64-65, and 67-99 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
